Parkville Living Center Pet Power Site Waiver

Jan 1, 2023 – Dec 31, 2023

Parkville Living Center Pet Power is a community enhancing program. All volunteers have completed training and pets and records examined and approved by a licensed veterinarian. They have signed an agreement form to keep all required immunizations up to date, that their animal will be well groomed, healthy, and clean and that at any sign of unsafe or inappropriate behavior, visit(s) will be discontinued.

In order to have visits by approved Parkville Living Center Pet Power teams, our facility agrees and verifies:

- Our site _____ is in good standing with Federal, State & Local regulatory agencies.
- We understand that we can & should contact volunteers to arrange visits and that an updated list will be provided after the certifications throughout the year

I understand a new waiver will need to be signed if there are *changes in authorized staff or the representative that signed the contract is/are no longer affiliated with your facility*

- Both as to staff, residents, and residents' families and other visitors, we release and hold harmless the Parkville Living Center officers, employees, and agents from any and all liability damage, or claim of any nature whatsoever that may arise from any damage or injury that may occur during the visits.
- I understand that the program participants will adhere to rules and regulations and that if a person or animal displays inappropriate conduct, I may request that they leave. *They will be required to adhere to our site's regulations on health and safety measures.*
- I understand that Parkville Living Center Pet Power has provided training and support for this program; participants understand their responsibility to protect the well being of residents and their pets, but that accidents can happen that may result in unacceptable behavior of the animal.
- I will notify volunteers if circumstances change and their visit(s) need to be rescheduled.**
- Our agency will provide recognition for Pet Power Volunteers and help promote the program. This includes providing feedback/quotes & approved photos on the impact of the pet visits on your residents.
- I hereby consent to any publicity including use of name and photos of residents or staff in connection with this program (*if this isn't policy of your site, cross out entire section*)

This information will be shared with volunteers so they can connect with you
