

Marigold

“Bolero Dwarf”

The Marigold Bolero Dwarf is a compact, easy-to-grow annual flower known for its vibrant bicolor blooms and ability to attract pollinators. It's a popular choice for containers, borders, and edgings. These marigolds bloom early and continuously throughout the growing season, making them a long-lasting addition to any garden. Deer resistant.

Key Features:

- **Size:** Dwarf variety, typically reaching 6-12 inches tall and 8 inches wide.
- **Bloom:** Large, double-crested blooms with gold and red bicolor patterns.
- **Pollinator Attraction:** Attracts bees, butterflies, and hummingbirds.
- **Deterrent:** Known for repelling insects and nematodes, making them useful companion plants for vegetables and other flowers.
- **Growing Conditions:** Prefers full sun or partial shade and average, evenly moist, well-draining soil.
- **Maintenance:** Generally pest and disease-free, and deer-resistant.
- **Use:** Suitable for containers, beds, borders, and window boxes.
