

Okra

Jambalaya 2.0 F1 Hybrid

Early, high-yielding, dark green pods.

Very uniform pods with 5 points. Large, robust flowers are also edible. Makes a great ornamental in containers.

Edible Flowers: Deep fry flowers or eat them stuffed, or use fresh as a striking, exotic-looking garnish. Sweet and mild flavor.

Transplant 12-18" apart in rows 3' apart after all danger of frost has passed. Full sun. Teat roots gently.

Harvest promptly by clipping pods at 3-4" long to keep plants productive. Oversized pods become tough.
